

STORAGE NAMEPLATES

Storage Sheds are all around us and builders and distributors want their brand ON them. Our Storage Shed Nameplates are a perfect solution! Made with engineering grade plastic using Ultra Violet Inhibitors, no other nameplate will hold up as well in the elements for years of outdoor advertising.

Features:

- 6 Stock Shapes to choose from
- Raised graphics for years of quality outdoor advertising

DESIGN INFORMATION

Plastic Colors

Print Colors

Custom made is easy, just answer these 5 questions:

- Interior or Exterior use?
- Size? We mold up to 6" x 16"
- Plastic color? (color grid)
- Print Color(s)? (color grid)
- Attachment? None, countersunk hole(s), strip tape, die cut tape, pin, clip, magnet, magnetic strip, Loop strap, belt strap, bead chain, split ring, combination hanger/easel

Artwork:

Electronic emailed art files are the preferred method of receiving artwork. All graphics and fonts should be vectored and files converted for use on MS Windows platform. We will accept the follow vector file extensions: .CDR-CorelDraw, .EPS-Encapsulated Postscript, or .PDF-Adobe Acrobat. If sending from a Windows platform, use CorelDraw X3 or before. If sending from a Macintosh platform, use Illustrator CS3 or before.

Artwork that is not suitable for our set up process is subject to cleanup at a rate of \$40.00 (v) per hour. With your properly vectored art file and clear instructions for layout, we will provide the first sketch and one (1) revision at no charge. Additional revisions will be done at a rate of \$25.00 (v) each.

Proof Approval:

Please check the following: size, plastic color, print color and attachment. Berlekamp Plastics, Inc. is not responsible for errors or omissions after the proof has been approved and the order acknowledged.

Size Calculation:

All custom design items are priced by size, not by design. To calculate the size, measure the height and multiply it by the length to calculate the square inch area.

Extra Raised Color Charges:

There is no limit to the number of spot colors that can be designed into our product. Spot colors require approximately 1/16" separation between colors. Flat printing has some line width and detail limitations.
